📍 CL 58N #4B - 45, Cali (Colombia)

Formation

Informatics Engineering

2020 - present

Universidad Autónoma de Occidente, Cali

Full Stack Developer, with experience in various Front-End and Back-End technologies.

I have always had a passion for technology and all the time I try to learn new things and do my best to acquire new skills.

I am a very responsible and hard-working person, I feel comfortable working in a team and I adapt quickly to new environments.

Experience

Full Stack Developer

2020 - present

Autonomous (Remote)

I have worked on various web development projects in: React.js, Node.js, HTML and CSS. With Front-End frameworks like Bootstrap and TailwindCSS, as well as Back-End frameworks and libraries like Express.js and Laravel. Code versioning with Git on Github and Gitlab. And SQL and NoSQL databases.
