 CL 58N #4B - 45, Cali (Colombia)

I am a full-stack developer with practical experience in various full-stack and hybrid mobile technologies. As an international professional with a passion for programming, I have dedicated my career to delivering innovative solutions for corporations and non-profit organizations. My ability to adapt quickly and seamlessly to complex work environments and client requests has earned me a reputation as a reliable and effective problem-solver.

In addition to my technical skills, I bring a unique combination of business development and marketing expertise to the table. I am an avid networker and have a proven track record of procuring and securing new work through effective marketing and relationship-building strategies. My goal is to continue to develop and implement creative solutions that make a positive impact on the world.

Education

Informatics Engineering 2020 - present

Universidad Autónoma de Occidente, Cali

Keeping Up With the Javascripts: ES6 Nov 2021

Purple

Certification ID: 5hxcwccvmk

Education First (EF)

Certification ID: q7tWbR

Learn Flutter & Dart to Build iOS & Android Apps Aug 2022

Academind (Maximilian Schwarzmüller)

Experience

Full Stack Developer Jan 2020 - July 2022

Freelancer

Oversaw numerous web development projects in: React.js, Next.js, Node.js, HTML & CSS. With CSS frameworks like Bootstrap and TailwindCSS, as well as Back-End frameworks and libraries like Express.js. Code versioning with Git on Github and Gitlab. And SQL and NoSQL Databases. And cloud providers such as AWS.

Full Stack JavaScript & Mobile Flutter Developer Aug 2022 - present

IQTHINK

As a full-stack JavaScript developer, I have hands-on experience in developing and delivering web applications utilizing technologies such as React, Vue, Node.js, and Express. I have a solid understanding of creating REST APIs and integrating them with the front-end for seamless user experiences. My expertise in both front-end and back-end development allows me to bring a comprehensive approach to web development projects.

In addition, I am experienced in developing high-quality mobile applications using Flutter. With a deep understanding of Dart, I have worked on multiple projects and delivered mobile apps that are not only functional but also visually appealing. I understand the importance of user experience and work closely with UX/UI designers to ensure the final product meets both the technical and aesthetic requirements.
